About Me

Passionate and creative Front-end Web Developer with hands-on experience in building modern, responsive, and user-friendly web applications. Expertise in React.js, Redux, JavaScript (ES6), HTML5, CSS3, and API Integration. ITI certified and experienced in delivering projects that meet user needs and business goals. Strong communicator, problem solver, and always up-to-date with emerging web technologies.

Professional Experience

Freelance Front-end Developer
Self-Employed — Feb 2025 – Apr 2025
- Developed front-end components for a travel booking website (flight and hotel reservations) using React.js, Material-UI, and CSS3, focusing on creating responsive and visually appealing interfaces.
- Contributed to the UI/UX development of a large-scale car rental management system, building dynamic, user-friendly layouts with React.js and CSS3.
- Collaborated with clients to understand business needs and deliver scalable front-end solutions.
- Adapted to evolving project requirements with strong problem-solving and communication skills.

Front-end Developer - Blue Technology (3 months)
- Developed dynamic, responsive user interfaces using React.js and CSS.
- Integrated React.js with Laravel to build full-stack applications.
- Collaborated on API integration using Axios for seamless data communication.
- Ensured the websites were mobile-responsive and performance-optimized.
- Conducted thorough testing and debugging to ensure high-quality delivery.

Intern - Front-end Developer - Blue Technology (3 months)
- Assisted in creating responsive web applications with HTML5, CSS3, and React.js.

- Worked with RESTful APIs and helped improve the user experience.
- Participated in daily sprint meetings and collaborated effectively with the development team.
