Professional Summary

Front-end Web Developer with hands-on experience building scalable and responsive web applications using React.js and modern JavaScript (ES6).

Experienced in authentication systems, API integration, dashboard interfaces, and performance optimization.

Passionate about writing clean, maintainable code and delivering user-centered digital experiences.

Professional Experience

Front-end Developer — Youverse (Aug 2025 - Dec 2025)

- Contributed to developing the company's learning platform using React.js.
- Implemented a full authentication flow including Register, Login, OTP verification, Reset Password, and Complete Profile.
- Integrated JWT authentication using secure cookies and token refresh interceptors.
- Developed and enhanced the video learning page including watch tracking and 'Mark as Complete' functionality.
- Contributed to certificate validation and generation flows.
- Refactored multiple UI components improving maintainability and performance.

Freelance Front-end Developer (Feb 2025 - Present)

- Developed a travel booking website using React.js, Material UI, and API integration.
- Built a car management system with dynamic UI components.
- Currently working on APM platform including the user-facing website and parts of the admin dashboard.

Front-end Developer — Blue Technology (3 months)

- Contributed to a full-stack ERP system integrated with Laravel.
- Improved performance and reduced page load time by optimizing front-end components.
- Worked on systems used by 500+ internal users.

Intern - Front-end Developer — Blue Technology (3 months)

- Assisted in building responsive web applications using HTML5, CSS3, and React.js.
- Developed multiple mobile-responsive pages for a client ERP system.
